AZHAR ALI MUBASHAR

Testing and Commissioning Engineer | Experience: 13 Years

Experience of working at variety of Engineering fields including Oil & Gas, Metro Train, Water Quality Improvement Projects, Industrial Projects, Pumping Station etc.
Looking forward to connecting with an organization to advance my professional career in BMS and ELV System Engineering

Contact Details

Contact: +966-502619327

Email: engr.azhar429@gmail.com

Location: Saudi Arabia

Iqama: Transferable Iqama

Driving License: International
Register SEC: 1151042

Skills

- Deals in integration, inspection, testing, FAT, SAT, Commissioning, start-up, and maintenance support for projects
- Deliverable termination drawing, instrumentation datasheet, logic diagram preparation, piping and instrumentation diagram
- Preparing Cost and Labor Estimates
- Designing Electrical Systems
- Managing Electrical Contractors
- Resolving Electrical Problems
- Conducting System Tests
- Preparation of datasheet
- Preparation of JB's specification datasheet.
- Preparation of as-built drawings
- Development and preparation of specification.

Rockwell Automation

- Studio 5000
- RS Logix
- SCADA: Factory Talk View (Site Edition)
- Factory Talk View (Machine Edition)
- HMI Designing: Factory Talk View

SIEMENS

- TIA Portal
- Simatic Manager
- SCADA: WinCC V7.5, WinCC RT Advance, Win RT Professional, WinCC Unified PC System.

YOKOGAWA

- Centum VP
- System Architecture

Experience:

WEBUILD – (Saudi Arabia)

Senior BMS Engineer – Jan 2025 – To Date

Responsibilities: Electrical design modifications and updates for control systems | Review of electrical schematics and panel layouts | Coordination with SCADA/PLC teams for design integration | Preparing as-built drawings and documentation | Support during testing & commissioning of BMS panel

Projects / Accomplishments:

- ***Project:*** Riyadh Metro Train Project (Focus on Rockwell PLC integration & panel design)

Avanceon – Middle East & South Asia (Saudi Arabia)

Testing and commissioning Engineer – Sep 2023 – Dec 2024

Responsibilities: Testing and commissioning of electrical and control systems | Verification of single-line diagrams and load distribution | Functional testing of panels and field devices | Pre-commissioning and commissioning of automation systems (PLC, DCS and SCADA)

Projects / Accomplishments:

- ***Project:*** Riyadh Metro Train Project (Testing and commissioning support for Rockwell PLC, HMI & SCADA systems
- ***Project:*** Water Quality Improvement Program (T&C in TIA Portal V18 environments with SCADA integration)

IPC Engineering Co.

Instrumentation and control Engineer July-2022 – Aug-23

Responsibilities: PLC Programming | HMI Designing | SCADA | VFD Configuration & Control | Instrument & Control | Troubleshooting | Modification in Existing PLC Program | Testing & Commissioning

Projects / Accomplishments:

- **Project:** Methyl acetate Plant with UWNTEK-500A DCS

CAP Engineering Co. Ltd

E& I Inspector Dec 2016 – June-2022

Responsibilities: PLC Programming | HMI Designing | SCADA | VFD Configuration & Control | Instrument & Control | Troubleshooting | Modification in Existing PLC Program | Commissioning

- Key features of my job responsibilities are the inspection, execution of automation projects, project life cycle including system design

- Bently Nevada 3500 Monitoring System
- PLC Programming
- HMI Designing
- Siemens TIA Portal
- Simatic Manager
- SCADA WINCC V7.5 WinCC RT Advance / Pro, WinCC Unified
- Variable Frequency Drives (VFDs)
- Drives: SINAMICS, INVT, SCHNEIDER, INVERTEK, FUJI, Mitsubishi, Allen Bradley etc.
- Control Valves, ON/OFF Valves
- Commissioning
- Fire Alarm System
- P&IDs
- ITPs
- Loop Testing
- MODBUS, PROFIBUS, PROFINET
- Field Instrumentation
- Computer Skills: MS Office, MS Project, VMWare etc.
- Leadership
- Creative Adaptive

Scan to open My YouTube Channel

Project / Accomplishments:

- **Project:** Evaporator automation using HC-900 hybrid PLC
- **Project:** Designing, developing of Ethyl acetate Plant with UWNTEK-500A DCS
- **Project:** Designing, developing and commissioning of Boilers

S.A Automation (Pvt.) Ltd.

Electrical and Instrumentation Engineer March 2013 – Dec-2016

Responsibilities: Design Review | Technical Queries | PLC Programming | HMI Designing | Instrument & Control |Troubleshooting | Commissioning

Project / Accomplishments:

- **Project:** Water Storage Tank System & Pumping Station
- **Project:** NutriCo. Morinaga IMF Dry Milk Plant
- **Project:** Boiler Automation with S7-300 PLC

PAK Power System (Pvt.) Ltd.

Electrical Supervisor Feb 2012 – Feb-2013

Responsibilities: Design Review | Technical Queries | VFD Installation | Instrument & Control |Troubleshooting | Commissioning

Projects / Accomplishments:

- **Project:** Electrical Site Works | Projects Execution

Education:

- **Bachelors**: Electrical Engineering- *University of The Punjab*
  CGPA : 3.42 out of 4
- **College**: Pre-Engineering- *Superior Higher Secondary School*
  Percentage: 73.54%
- **Matriculation** (School, 10 Years)– *Taemeer-e-Nue Model School*
  Percentage: 70.00%

Certifications:

- Process Control & Instrumentation
- SINAMICS VFD Drives Control
- Process Control Engineering (SITRAIN- SIEMENS)
- SIEMENS TIA Portal PLC Programming & HMI Designing
- RADAR Level Measurement Technology
- PLC Programming & HMI Designing using Simatic Manager
- SIEMENS S7-1200 PLC & WinCC Advance
- SIEMENS PLCs Training (SITRAIN- SIEMENS)
- Variable Frequency Drives Control
- Permit to Work (PTW), Hazard Identification, BP's 8-Golden Safety Rule & Control of Work (COW)

My Individual Working:

My YouTube Channel: Automation Engineer

PLC Programs Developed & Uploaded:

- High Pressure High Temperature Boiler Automation
- Multi Drive Multi Pumps System 7-Pumps (S7-1200 PLC+SINAMICS G-120X)
- Talo Automation
- Falling Film Evaporators Automation
- Slug Catcher & Blow Case Logic
